

CRIMINAL JUSTICE

Features of the Program

The Criminal Justice program prepares students for exciting and challenging careers in the rapidly expanding fields of law enforcement, investigations, private security, and corrections. In addition to modern course offerings, students visit courts, correctional facilities, law enforcement agencies, and private security installations. A vast system of networking enables students to interact with seasoned law enforcement officials.

A Criminal Justice major completes credits in professional and general education courses. The general education core helps the student develop analytic and communication skills, and provides an understanding of the economic, political, and social context within which the criminal justice system functions. Professional courses consist of the most advanced instruction available in investigations, evidence, policing procedures, criminal law, and modern correctional practices.
